PREFACE.

The Statistics Committee of the Alumni Association spent considerable time during the years 1902 and 1903 gathering information concerning the location and work of the Alumni.

At the meeting of the Association last June, the Board of Regents was requested to give permanent form to this material, by publishing a Register of the Alumni of the University. The request was granted and this pamphlet is the result.

No one can be so fully conscious as those who have labored longest at this work, that it is but the beginning both in matter and form of a Register which may be prepared in the future and ought to be in the hands of every Alumnus.

It will be found that a rather large percentage of the Alumni are unlocated and it is the desire of the Association to remedy this defect as far as possible. All Alumni who change their addresses or their occupations are urged to notify the secretary of the Bureau of Information at Iowa City. It is also urged that the present addresses of those marked with a star (*) or those having no addresses may be sent the secretary. It has been thought best to give the last known addresses to those not answering their cards unless such addresses were known to be wrong, but to star(*)all such. This star (*) will mean to you,—information uncertain.

The omission of the names of the Faculty workers of the past years has been necessary because no list has been fully worked out from the records, and the time is now wanting for the completion of such a task.

The Colleges or Departments have been arranged alphabetically rather than by classes because it is thought that such an arrangement will be more useful if but one arrangement is used.

The especial thanks of the Alumni and University are due to Miss Alice B. Chase of the University and to Miss Kate B. Rogers, Chairman of the Statistics Committee, both of whom have worked long and untiringly at this task. The blame for omissions and other faults must lie with the hands that have prepared their material for the press.
